KEEPING THE NEIGHBORHOOD INFORMED!

RANCH, ETC. CLOSING

Not quite reaching their 9th anniverasary on October lst, the Wilson family is closing the doors to Ranch, Etc., a cornerstone of commercial business sector in the tri-community area. Saturday, August 15th, will be the last day for this neighborhood business to provide local livestock owners with ranch supplies and feed.

Ginger, Mike, and Preston are well-known for giving back to the community by generously hosting shot clinics and numerous fund-raisers for the Whetstone 4H'ers, dog-rescue organizations, etc. at their store-front located at 3158 W. Meadowlark Lane in Mescal.

With the sale of the property, the Wilson family look forward to their retirement from retail business. Preston was quick to add, "I'm planning a loooong vacation!"

Ginger, Mike, and Preston wish to thank the

Community members have an opportunity to make a difference by becoming involved.

Deadline for mailing letter explaining interest and listing qualifications is August 26, 2015.

community for their many years of support.

Store will be opened Saturday, August 15th, until 2:00 P.M.

SOUTHLINE TRANSMISSION LINE

The public review for the Final Environmental Impact Statement for the Southline Transmission Line Project was initially scheduled for Spring 2015. CDO is now told that this review, which includes Mescal in the 2nd segment, will likely not be available until the end of August.

The proposed transmission line would consist of two segments: (1) 240 miles of new doublle-circuit 345-kV transmission line linking substations near Las Cruces, NM and close to Willcox, Arizona and (2) upgrade and rebuild of approximately 120 miles of Western Area Power Administration's existing 115-kV transmission lines to a double-circuit 230-kV line between Willcox and northwest Tucson substations.

CDO's last review of the process and long-term impacts from this project was October 16, 2014. Click here for portal to photographs, preliminary study results.
