COMMUNITY INPUT SESSION WITH COUNTY TRANSPORTATION REP

MARCH 29TH AT 6:30

CDO is hosting input session with Transportation Planner Karen Lamberton. This input is timely before final recommendation of new routes are drafted!!!

COMMUNITY BIBLE CHURCH

J-6 RANCH ROAD

THIS IS A WORK SESSION TO GIVE YOUR INPUT TO THE COUNTY AS TO HOW TRAFFIC SHOULD BE ROUTED IN YOUR NEIGHBORHOODS!

Karen Lamberton will make a 15 minute presentation. She will have handouts; maps on population distribution, possibly basic preliminary traffic impact projections, rail information and the existing conditions report. Discussion will follow on the basic question:

Given what we know about our existing conditions and constraints and given the likelihood of future population and traffic impacts, what kinds of improvements do we need right now, in the next ten years, in the next thirty years and beyond?

The plan is to divide into groups, reconvene and find common ideas. This information will be presented to the Technical Advisory Committee before they generate solutions. Later discussions will narrow down possible solutions to ideas that are feasible and within forecasted funding.

BACKGROUND INFORMATION AND LINKS TO RELEVANT DOCUMENTS ON PAGE 2

NORTHWEST TRANSPORTATION PLAN FOR AREA - will identify potential highway and arterial routes to meet projected transportation demands for the years 2020 and 2040. This plan will also consider freight, transit and other alternative modes of travel within the area of City of Benson, St David, Pomerene and the J-6/Mescal areas.

- Summary of comments from Open House and interviews with 30 stakeholders compiled to understand key concerns, identified needs and proposed solutions.

  CLICK HERE FOR REPORT.

  CLICK HERE FOR LIST OF STAKEHOLDERS INTERVIEWED.

  CLICK FOR EXISTING CONDITIONS REPORT.

  CLICK HERE FOR COMMENT FORM.

Next Steps:

"Projections of future conditions will include population and employment growth, committed and planned infrastructure improvements and traffic forecasts. These will help in determining future transportation needs. The final phases will include prioritizing potential solutions, estimating project costs and identifying current and potential funding sources. Report is expected to be completed in June. CLICK HERE FOR ADOT WEBSITE FOR RELATED DOCUMENTS.

Population Projections within study area:

- In 2008, 12, 290 people with roughly 5,030 of those living within the City of Benson.
- Actual growth rates for last decade close to 3.8 % per year.
- Growth rate for modeling has been tentatively set at 2.0 % or an increase of 11,700 people by the year 2040.
- 5,086 new homes by 2040—2,750 of those in County
- Most growth projected along western end of study area, following SR 90 and avoiding the San Pedro River Corridor.
- Potentially adds 48,670 trips per day onto the roadway network.

QUESTIONS AND ANSWERS ABOUT 2010 CENSUS

The U.S. Bureau of the Census is getting ready to snap our picture on Census Day - April l, 2010. Census Questionnaires will be mailed out a few weeks before Census Day and Census Staff will be out on the streets through June helping residents fill out their forms. Census form are not mailed out to P.O. Box and Census workers will be personally delivering forms to houses that do not have a mail-box address.

For samples of the Census form, practice tests for Census jobs, an interactive blog by the Census director and other information, link to the official Census site at http://2010.census.gov.

To follow the Count (Interactive Map) - click here.

Confidentiality of the Census: By law the Census Bureau cannot share the answers provided on census questionnaires with anybody and that includes the Immigration and Naturalization Service, the Internal Revenue Service, welfare agencies, courts, police and the military. This law has been backed up by the U.S. Supreme Court and it works.

Protecting your privacy is also an important part of every Census worker sworn oath of office. They face a $5,000 fine and a 5 year prisorn term if they give out any of the information they see on a form. Your individual answers are combined with many other household responses to produce statistical summaries. No one can connect your answers with your name or address. Click here for more.

MESCAL J-6 FIRE DISTRICT UPDATES

Job Description for Fire Chief Approved by F.D. Board:

On Feb. lst, the Fire District Board approved a Job Description as first step in filling the vacancy resulting from the resignation of Fire Chief Warren Neff.

Click here to see full description:

Highlights from Job Description include:

Minimal Qualifications:

- 7 years of experience in Public Safety, Fire, and/or Emergency Medical Service work with at least 4 years in an administrative, management, or supervisory capacity, OR any acceptable equivalent combination of Education and Experience related to Public Safety, Fire, and/or Emergency Medical Service work with duties in an administrative, management, or supervisory capacity.

Knowledge, Skills, and Abilities:

- Extensive knowledge of leadership and management techniques and the ability to apply them
- Ability to plan, initiate and carry out long term programs in fire district administration, firefighter training, volunteer management and recruitment, fire prevention and control, and emergency medical response

Duties and Responsibilities:

- Plans, coordinates, supervises, and evaluates Fire and EMS operations
- Establishes policies and procedures for District operations.
- Reviews and evaluates District's performance and effectiveness
- Coordinates with the Fire District Board the preparation, presentation, and spending of an Annual Budget for the Fire District.

NEXT STEPS:

The Fire District Board has submitted a request for bids for a consultant to provide assistance with the following services: 1) creation of an application process, 2) creation of an announcement of the position, 3) statewide distribution of the position announcement, 4) review of the applications, and 5) recommendation of qualified applicants to the F.D. Board.

Bids are expected to be opened on Wed., March 10th.

Secretary Rhonda Toledo-Buchs Resigns:

Rhonda Buchs resigned effective March lst from the Fire District Board. The remaining board members Terri Jo Neff and Bill Dupee, will appoint a replacement to complete the term until the 5-member board election in November.

Preparations for 2010 Budget:

Treasurer Bill Dupee will Chair the Budget Committee that will begin preparation for the 2010 Annual Budget shortly.

A committee of Command Staff, Advisors, and residents will meet to prepare a draft recommendation to the Fire District Board. When tentatively approved, the budget will be published in a local newspaper and a public hearing scheduled. The process should be completed by the beginning of June.

Committee meetings are open to the public with the time and meeting date posted on the Fire District Bulletin Board at the Quick Pic.

Recently adopted state laws limit the rate that the tax levy can increase. In order for the Fire District to take advantage of the slight increase, the tax rate for Pima and Cochise County property owners would need to change from the current $ 0.6907 to $ 0.6945. The F.D. Board continues to state it does not intend to raise the tax rate.

The District has received approximately 60% of the expected $147,000 from the 2009 tax monies.

Rural Metro Erroneously Contacted Area Residents:

Rural/Metro Fire District erroneously sent subscription and contract information to residents from several areas within the Mescal J-6 Fire District during the early part of February.

The Mescal J-6 Fire District notified Rural/Metro who acknowledged the error was made by a customer service representative. Rural Metro will be contacting the individual property owners immediately and refunding any monies collected.

Proposed Legislation HB 2752 - Ambulance Service:

Amendment would "ensure that if only one Certificate of Necessity (CON) is issued in a service area, another ambulance service may provide transportation between medical facilities if that transportation is required for medical reasons and if the ambulance services processing the CON cannot respond in a timely manner. Click to contact legislators.

Appraisal for Land Completed: (Fire District Updates Continued)

The Fire District Board has received an Appraisal of Real Property for five lots west of the Quick Pic. The District had approved seeking the Appraisal as step one of developing "a plan" with the property being considered as a possible site for a new fire station and communication tower.

The Appraisal was completed by DiPeso Appraisal Service, L.L.C. for $ 350. The estimated market value of the approximately 1.3 acres as of February 6th is $ 155, 000 which is slightly above the asking price quoted by Chair Terri Jo as $150,000.

Properties used as comparables included Ranch. Etc., Mescal Bar and Grill - both on Meadow Lark and 4 additional properties within the City of Benson.

2008 appears to be the last recorded sale available.

Residents at the Feb. lst Fire District questioned the rationale for this appraisal since no significant discussion of the property had occurred at previous Board Meetings.

Residents ask the Board what other properties were considered. Several examples of other properties with greater area and with price tags nearly $50,000 less were presented to the Board.

As reported in the last issue of the Tri-Community Newsletter, the CDO filed a request to review official documents to better understand the F.D. Board actions.

Fire District Releases Available Records: (Fire District Updates Continued)

On March 2nd, the Fire District Board contacted both the CDO and a J-6 Resident to make available for viewing and copying documents in their respective public records requests. The delay in processing the request was attributed to needing to contact the County Attorney for legal advice prior to releasing documents.

Limited records were available for CDO to review - SEE RELATED ARTICLE ON PAGE 4. Copies of multiple federal and state grant applications were provided to the local resident.

Since the action to release records was a result of Fire District communication with both the State Ombudsman's Office and the County Attorney, CDO has requested copies of the written communication between the State Ombudsman, County Attorney's Office, and the Fire District so that CDO can prepare a summary of best practices for dealing with public records.

Terri Jo Neff Indicted on More Charges

Neff, Chair of the Mescal J-6 Fire District, was arraigned on March lst on six more counts related to the earlier two felony indictments for theft; fraudulent schemes and artifices.

Neff entered a plea of Not Guilty to the initial charges. The 2 counts of Forgery and 6 counts of Theft will be heard at a Jury Trial scheduled for April 19, 2010, at 9:00 A.M. in Division III.

According to a Feb. 23rd article in the News-Sun, Neff has been charged with knowingly embezzling an estimated $ 49,480.51 from Robert and Alana Baker, owners of Mescal Auto in Mescal.

Neff has been asked to resign by two different residents at the Call to the Public during two separate Fire District Board Meetings -- the most recent being a resident from Red Hawk on March lst. Both residents said her indictments places a cloud of suspicion over business conducted by the Fire District. Both residents also cited her past criminal record for theft.

FREE DUMP DAY - MARCH 13

BENSON AND ST. DAVID TRANSFER STATIONS

Benson Transfer Station **980 N. Madison** **586-2095** **7:30 a.m. to 3:00 p.m.**

F.D. Board has land appraised. See article on page 3. CDO requested to review documents to understand rationale and extent of planning. Questions remain about the District's actions mentioned below:

Why is the Fire District doing business without a plan, or written records of conversations and meetings?

Why is the Fire District not keeping copies of reviewed/ discussed documents?

Will the Fire District continue poor business practices reflected below? CDO Board is concerned.

1. CDO Jan. 24th Request: To review any emails, records of communication between members-advisors-consultants-others related to any District strategy that indicates an appraisal to purchase land for a future station and communications tower should be step one of a planning process.

2. CDO Jan. 24th Request: To review any documentation, record of conversation which identified

   A. The criteria of land needed for placement of a tower…

   B. A general idea of size of facility needed to accommodate legal requirements, guidelines, to provide for firefighters and existing equipment, and proposed equipment for the next decade.

3. CDO Jan. 24th Request: To review research documentation that identified available residential, commercial lands in area that meet above criteria and what checklist/ rating matrix, etc. was used to move this property to the forefront for seeking an appraisal to provide information needed for "a plan".

   Resubmitted Request on 1/27/10 - To review any records indicating inquiries prior to January 20th regarding availability/suitability of other properties.

   FIRE DISTRICT Jan. 26th Response: As to your request for records please note no such records exist as there is no "plan" or "strategy" in place as described by your email.

   FIRE DISTRICT Feb. lst Response: To my knowledge the Board has not discussed nor undertaken any review or suitability study of other properties, so there is no such records to provide for you.

4. CDO Jan 27th Request after presenting Board with recording of Oct. 23rd Work Session with conversations of F. D. Board Members, Advisors, and Canyon State Wireless Representatives: To review any and all communications with Canyon State Wireless….all communications with ADOT, other entities, individuals, etc. related to the parcels identified in the appraisal bid. **(Conversations, site-visits, contract proposals, studies, etc. mentioned on tape)**

   FIRE DISTRICT MARCH 2ND RESPONSE: The majority of the "communications" requested for review by the CDO involve verbal discussions, either in meetings or phone calls. Although these communications relate to the subject matter included in your request, Ms. Terry Bannon of the County Attorney's Office has advised that the District is neither required to create reports of verbal communications nor in some way construct for your review a document that does not yet exist.

   Some of the communications requested by the CDO involve documents prepared by other entities or persons which District personnel may have seen or read at some time. We have been advised by Ms. Bannon that we can not provide for your review any documents which may have been seen by District personnel but never came into the District's possession.

   With respect to the CDO's request to review "all communication with Canyon State Wireless: the only records found in our possession is the email notice sent to them soliciting bids for removal of the antenna at the Quick Pic and their emailed bid response……..

   With respect to the CDO's request to review "all communication" pertaining to the "parcels identified in the appraisal bid" the only record found in our possession are the recent bid solicitations and the appraisal itself. …. which will be provided for your review.

Owner-Builder Opt Out
Animal Ordinance Revisions Updates -
Citizen Input Made a Difference!

Owner-Builder Opt Out:

Supervisors vote 2-1 to extend Owner-Builder Opt Out program to more property owners with 4 acres or greater regardless of zoning district. Having the option to build under the Amendment without county-oversight inspections translates to significant savings.

An Opt Out permit costs about $105 versus a regular building permit that can easily cost up to $1200-$1500.

The amendment does not exempt owner-builders from statewide codes such as the plumbing and the fire codes and regulations regarding smoke detectors, nor… from fire codes adopted by fire districts or the County. The owner-builder must also file a Disclosure Statement.

Hazard Abatement Ordinance -

Scheduled to be heard March 10th at Planning and Zoning. Staff will ask the Commission to continue the study session to the April 14th meeting. It is highly likely the Commission will grant the time extension.

Animal-Ordinance Revisions:

The County Board of Supervisors approved revisions to the Animal Control Ordinances after proposing re-writes. "Because of all the changes that were made, the animal ordinance will come back to the Board again for final approval, probably within the next three weeks," explained Supervisor Searle.

State Statute language of "excessive and unrestrained barking" was added to Section 8 to negate original language that an Animal Control Officer can enter ones property and impound a barking or howling animal if he feels that the noise will continue.

The definition of Abandonment was also changed so that residents leaving their animals for 24 hours with water, automatic feeders would no longer be in violation of the Ordinance.

Searle expressed language clarifications may be needed to deal with the term "Kennel" and may be forthcoming in the upcoming re-writes.

County licensing of dogs would no longer be necessary; however, vaccinating for rabies will still be required.

CDO's concerns were featured in the Sierra Vista Herald Article published Jan. 11, 2010.

WANTED

Our neighborhood is the home of many retired professionals who continue to utilize their talents when there is a need. Many of these individuals do not advertise but are available via word of mouth.

For two months, we want to tweak this concept to see if these postings serve a community need.

So if you need some one with a special skill, post a note here and let us help you connect with

- **an accountant**
- **health-care giver**
- **notary**
- **driver**
- **house keeper**
- **babysitter**
- **????????**

THIS ONE IS FOR YOU - JUST CALL!
