MESCAL J-6 FIRE DISTRICT AWAITING FIRST FUNDS FROM TAX ASSESSMENTS IN COUNTY

The Mescal J-6 Fire District has yet to receive tax dollars from Cochise and Pima Counties to help with operations, maintenance, and equipment needs.

Residents received their first local Fire District Assessment with their 2009 October Tax Bill that reflected an amount of .6907% of the full-cash net assessed value of their home and property -- approximately $ 70 for a home with a full cash value of $100,000.

According to Fire Board Chair, Terri Jo Neff, at a recent Board Meeting, the mechanism for receiving monies from two counties had not been finalized, but word was expected shortly as to the delivery of tax dollars.

Monies are expected to begin arriving in the latter part of October with the majority not being received until closer to the end of the year.

The Fire District Budget projected $ 147,000 of revenue from Real Estate and Personal Property Tax for the 2009 fiscal year.

Due to the economy, the Fire District Board is not assuming that this full amount will actually be available since more than 10 - 20 % of the tax bills are expected to go unpaid.

The Fire District Board is scheduling a series of work sessions with guest speakers to learn more about funding resources, loans, bonds, grants, etc. .

NEW RESCUE TRUCK NEEDED BY FIRE DISTRICT

Deputy Fire Chief Chris Bernal explained to residents attending the October CDO Quarterly Meeting that the Fire District needs to replace Rescue 171.

Rescue 171 is an old converted ambulance which now has 217,400 miles, oil leaks, power steering leaks, electrical problems and is overweight and top heavy. It is the first out of the station to respond to vehicle accidents and emergency medical calls.

In addition to age, mileage, mechanical, and safety issues, Rescue 171 is not able to carry all the equipment needed that might be necessary for many of the 300 plus calls to which the firefighters/ paramedics respond per year.

Having to respond with multiple vehicles is not the best use of resources, and is often not possible with a limited volunteer staff.

A single multipurpose Rescue Pumper is needed so that the District could bring as many as 6 firefighters to a scene with water, emergency medical supplies, the Jaws of Life, air bags to lift vehicles, cribbing, and other rescue equipment that might be needed to more safely remove trapped victims while also protecting firefighters.

The Fire District has applied for a highway safety grant which would cover approximately 25% of the cost of the truck anticipated to cost $250,000 to $300,000.

FROM J-6/ MESCAL CDO

CDO BOARD RECOMMENDS CHANGES BE MADE TO THE MESCAL J-6 FIRE DISTRICT BYLAWS

Since 2003, the J-6/ Mescal Community Development Board of Directors has reviewed government entity actions that may impact our communities; hence the interest in the Mescal J-6 Fire District approval of organizing documents as a taxing district.

When beginning the task, the CDO Board acknowledged these important elements:

1) The Fire District provides a vital volunteer service to our community.
2) The Fire District Board, Firefighters, and Community are engaged in a major-learning frenzy to meet the requirements of being an official district.
3) Due to the Fire District having limited unpaid staff, the Community must step forward, become involved and provide supports.
4) Bylaws are second in the following hierarchy of governing documents so must be carefully composed:

   A. Arizona Revised Statues

   B. Bylaws,

   C. Operational Policies

5) Organizational Documents should provide a solid foundation for when the 5-Member Board is elected in 2010 for lengthy terms. Three will serve 4-year terms while two members serve 2-year terms. Thereafter - 4 year terms.

THE CDO BOARD SUGGESTS SIMPLE LANGUAGE CHANGES THAT WILL:

- **PROVIDE EQUAL REPRESENTATION BY BOARD MEMBERS**
- **PROVIDE TOOLS TO SAFEGUARD FULLFILLMENT OF RESPONSIBILITIES**
- **DIMINISH CUMBERSOME PROCEEDURES, AND**
- **PROMOTE TRANSPARENCY.**

The CDO Board submitted the following suggestions to the Fire District Board for consideration in amending their Bylaws. Sample language was also provided from the Fire District Association Handbook.

- **Specify time periods for term of service by Officers and Standing Committee Members**
- **Add mechanism to remove officer or committee member if he/she is not fulfilling responsibilities**
- **Require Board approval for appointments to Committees/ particularly the Chair of the committee**
- **Require Board directive to assign work to committees**
- **Restrict the Board Chair from voting in committees that will be making recommendations to the Board**
- **Require more than 24-hour notice to Board Members of meeting**
- **Extend Notice to the Fire Chief from 15 days to 30 days if he is being dismissed without cause to allow significant notice to the public of a major personnel change**
- **Change the process of amending a Policy governing daily operations so it is less onerous than amending the Bylaws.**

The Bylaws were approved on the 3rd of August and are available for review from a link on the homepage of cdonewsletter.com.

Suggestions were submitted to the Fire District Board on August 13th. and are also posted for review on Tri-Central News.

In October, a Chair to the Bylaw and Policies Committee was appointed by District Board Chair, Terri Jo Neff.

See the related article entitled Community Volunteers Needed to see how you might participate in reviewing and revising the existing Bylaws.

FIRE DISTRICT REQUESTS COMMUNITY MEMBERS TO BECOME INVOLVED IN NEW COMMITTEES FORMING TO MAKE RECOMMENDATIONS TO THE DISTRICT BOARD RELATED TO BUDGET/ FINANCES, BY-LAWS AND POLICIES, AND LEGAL AND INSURANCE MATTERS.

COMMUNITY VOLUNTEERS NEEDED

The Mescal-J6 Fire District is seeking residents and owners of property within the District to serve on three Governing Board committees: the Budget Committee, the Legal and Insurance Committee, and the Policy and By-Laws Committee.

The Budget Committee presents a proposed annual budget to the Board, recommends the hiring of a CPA for audits, and reviews large expenditures not included on the current adopted budget. Board Treasurer Bill Dupee is the committee's chairperson.

The Legal and Insurance Committee advises the Board on legislative, legal, and insurance matters. They are also responsible for reviewing any matters referred to their committee by the Policy and By-Laws Committee. Members with insurance or legal backgrounds are preferred. Michael Gherardini is the committee's chairperson.

The Policy and By-Laws Committee reviews the District's Board Policy and the District's By-Laws at least once a year. All proposed changes to the Policy and By-Laws are submitted to the Governing Board by this committee. Doug Stickler is the committee's chairperson.

The time commitment is estimated at 2-3 hours per month. Meetings will begin as soon as each chairperson appoints his committee members.

Committee members are appointed as individuals, not as members of any organization or group.

Persons who live in the District or own property within the District may submit a letter of interest, indicating which Committee they are interested in serving on with a brief outline of their experience, to the Governing Board, attn: Secretary Rhonda Toledo-Buchs at 388 S J-Six Ranch Road Benson AZ 85602 or via email to mescalj6fire@hotmail.com For additional information please leave a message at 520-586-7007.

ARIZONA DEPARTMENT OF WATER RESOURCES TWO IMPORTANT ITEMS - (SEE NEXT PAGE)

On Oct. 2nd, ADWR met with interested parties who either received a yellow post card in the mail with the following text or who were wondering why their neighbors did but they did not.

NOTICE OF FILING SAN PEDRO RIVER WATERSHED SUBFLOW REPORT

THIS NOTICE is directed to water users in the San Pedro River watershed who filed statements of claimant in the Gila River Adjudication. Please read it carefully, as your water rights may be affected……..

The Subflow zone (red hash marks on map) are being proposed and will identify areas where wells will be considered pumping surface water rather than groundwater -- therefore, will be part of the Adjudication process as water rights are determined.

If the subflow zone designations are approved, one of the next steps will be to identify wells outside the zone which will be brought into the Adjudication when ADWR identifies them as being able to produce a cone of depression that will intercept the boundary of the zone.

Bill Hess, reporter for the Sierra Vista Herald, covered the story with great detail: “Looking below the surface in effort to save the San Pedro”.. The Powerpoint presentation from the meeting can be viewed on the ADWR website or from direct link on Home Page of Tri-Central News (cdonewsletter.com).

Pictured - 1 of 33 maps to designate subflow zone along the entire length of the San Pedro River.

GOVERNOR REQUIRES ADWR TO SUBMIT BUDGET WITH 10% - 15% CUT

EQUATES TO:

- **40% LOSS OF STAFF**
- **LOSS OF RURAL WATER PROGRAM**
- **LOSS OF MONITORING GROUNDWATER-LEVELS IN RURAL AREAS**
- **LOSS OF TECHNICAL SUPPORT**
- **LOSS OF FUNDING FOR OUR 7-YEAR USGS STUDY**

Draft proposal for the budget reduction requested by the governor on agency's website –**www.azwater.gov**

SERVICES STILL AVAILABLE TO COMMUNITY

VICAP - VOLUNTEER INTERFAITH CAREGIVER PROGRAM

VICaP is a program of volunteers who drive Benson area community members who are home-bound, elderly, or disabled to medical appointments in Tucson, Sierra Vista, and Willcox.

VICaP will also help folks in the Benson area who live on the west side of the Cochise/Pima County line to do their shopping or medical appointments in Benson.

Consequently, if you have the time and the generosity to help area residents, become a *VICaP* volunteer. Phone Judy Wise-Ray, the local *VICaP* volunteer coordinator living in Mescal, at (520) 586-2387 for more information.

COMMUNITY FOOD PANTRY

Our local Community Food Pantry posts eligible income levels but takes great pride in operating under the "Honor System" where no one is "turned away".

Dedicated volunteers open the Pantry located at 451 Easy Street every Wednesday from 10:00 to 1:00 where food items are distributed to several hundred individuals who may or may not be able to leave a donation. Items vary every week, but frequently include can goods, peanut butter, nutritional bars, cereal, bread, produce, etc.

Every 3rd week is Commodity day where items such as bags of vegetables, juice, pork or chickens might be available.

The Food Pantry is dependent upon donations from the general public and periodic grant awards. Money donations may be mailed to the Community Pantry of Benson, P.O. Box 623, Benson, Az. 85602

The Food Pantry also provides Emergency Food Boxes when notified by the Visitors Center, distributes food on the 3rd Monday for those who have signed up at the County Health Department for the Food Plus Program for those 60 and over and food boxes for Children 1 to 5.

LOCAL RESIDENT RECEIVES RECOGNITION

LARRY MARTINEZ - In September, Larry received a Certificate of Appreciation from the Arizona Association of Food Banks and the Az. Statewide Gleaning Project "for his inspiration leading the dedicated staff at Benson Food Pantry, working with all partners of the Arizona Statewide Gleaning Project to eliminate hunger in Arizona". The Arizona Statewide Gleaning Project was established in 1993 when food banks joined forces to create a coordinated effort throughout the State to "rescue and distribute food purchased by the Government thru Agricultural programs.

Larry is currently the President of the Food Pantry Board and will be starting his second four year term shortly. Larry gives much credit to his dedicated volunteers for the success of the Benson Food Pantry.

FLEMING TO HAVE "COFFEE WITH CONSTITUENTS"

Rep. Pat Fleming, D-Sierra Vista (District 25), will hold a series of Coffee with Constituents meetings to discuss issues that are important to constituents, answer questions and learn about their priorities.

"Your input matters and will help me serve you and our community better," Fleming said. "I look forward to our continued dialogue as we work to build a stronger and better future for Arizona."

Constituents are encouraged to sit down and meet with Rep. Fleming on October 24th, 10 A.M. to Noon, Safeway Shopping Plaza, Benson. No appointment or RSVP is necessary.

NEWS BRIEFS

FOREST SERVICE DECOMMISSIONING SEVERAL ROADS IN HAPPY VALLEY:

The Coronado Forest Service just completed a round of public comment regarding decommissioning several wildcat roads in Happy Valley. Forest resource specialists determined that these roads do not serve a purpose commensurate with their financial and resource damage cost, among other factors.

Two roads planned for decommissioning appear in red on the adjacent map.

Cochise Trails Association, a non-profit organization of hikers, mtn. bikers, equestrians, and outdoor recreationalists, have met with Laura White, Travel Management Program Manager, to discuss the recreational importance of 4307-05R-1. For those who frequently visit Happy Valley, this road provides access to a major staging area for group activities due to the open field and has historically been used for large group, family camping under a beautiful large oak tree. The continuation of the road up the hill to the west has been closed to travel for a period of time.

While Laura White commented she will review CTA comments and speak with the review committee about this area, she also mentioned other resource damage done by off-road vehicles that may temporarily restrict use of additional staging areas until the vegetation recovers --- not a short-term process. Since the Forest Service does not "sacrifice an area for irresponsible use in order to save other areas", users to Happy Valley may find more and more restricted areas unless riding behavior changes. The message is simple - responsible behavior leads to continued access.

ACCESS TO WHETSTONES BEING DISCUSSED

According to a recent article in The Arizona Republic, the Coronado National Forest, in southeastern Arizona and southwestern New Mexico were big stimulus- money winners - $16.570 million.

The federal monies being pumped into Arizona's national forests are for dozens of projects, from "cutting underbrush that fuels wildfires to repairing roads and trails to sealing abandoned mines".

According to the Schedule of Proposed Actions on the Coronado Website, road construction on the east side of the Whetstones is listed as a proposal that will begin or is undergoing environmental analysis and documentation so that people can become aware of and indicate their interest.

The information posted describes construction of a road "to connect NFSR 369 north and south (approximately 1.1 miles) and decommissioning less than ? mile of road from the new alignment to the forest boundary where the current road leaves the forest onto private land". The location is between Middle Canyon to the north and Dry Canyon to the south. Tune in to Nov. issue for more information as scoping documents are released. **Click here** for other proposed actions.

NORTHWEST TRANSPORTATION PLANNING UPDATE

Cochise County Transportation Planner, Karen Lamberton, has met with ADOT and Consultant Ron Ross from URS Corp to strongly encourage re-evaluation and movement in the planning process. The latest meeting was held October 13th.

One major hold-up was filling the vacancy of Project Manager created when Charlene FitzGerald accepted the Executive Director's position with the Yuma Metropolitan Planning Organization.

Mark Hoffman, ADOT, MPD/Transit, has been designated the new project manager for the Northwest Cochise County Long Range Transportation Planning Project.

The second meeting of the Technical Advisory Committee is being scheduled for the first week in November.

Two objectives of the meeting will be:

Receive input and comments on the Draft Existing Conditions Report for the Study Area and finalize the report.

Review and prioritize transportation system improvements based on the findings in the Draft Existing Conditions Report and suggestions received during the stakeholder interviews and June public meeting.

COCHISE ENERGY EXPO

Sulphur Springs Valley Electric Cooperative, Inc.

SAEDG southeast arizona economic development group

Solar Park FOUNDATION

Everything you've ever wanted to know about Solar, Wind, Biofuel, Electric & Hybrid Cars, Energy Efficiency, and more will be in one location!

To reserve an All Day Pass send $25 ($20 before Oct 20) to SAEDG at PO Box 1312 Benson AZ 85602 or pay via Paypal at SAEDG's website www.saedg.org For more info call George at 520-265-6058

BECAUSE YOU ASKED:

MESQUITES AND PESTS

Periodically we get requests for special features. The following are two which are timely - the pests will soon be obvious during the fall and winter months. When leaves are abundant, the problems are hidden.

MISTLETOE AND MESQUITES - CERTAINLY A PEST!

The following are highlights from a BLOG developed by George Brookbank who was an Extension Agent for the University of Arizona Agricultural Extension Service and is a world-renowned expert on desert plants. The article "Mistletoe Is Certainly a Pest", was written in February 2008 and can easily be accessed by clicking here.

Due to a series of dry years, when the trees are under a water stress, Brookbank no longer accepts the argument "that a parasite, living on its host, would be crazy to kill the host and deny itself a source of food."

Although there are still plenty of native trees, those surviving are looking more miserable than they need to be while mistletoe looks strong and vigorous.

"The moisture that the parasite needs comes from the host tree and if that tree is not supplied with weather, either by rain or by irrigation, it's sure to suffer. I'm joining the people who remove the pest."

A brief summary of various strategies and their success:

- Pull off the great green globs or breaking off clusters ---- helps the tree but doesn't kill the pest. Will re-sprout if the roots have started growing into the branches.
- **Cut off the cluster with a piece of the branch ---- prevents the mistletoe's growing through the branch system and into the trunk itself.**
- Apply chemical --- no chemical will kill mistletoe without affecting the host tree. "Any systemic chemical will also affect the host tree because the pest and the host conducting systems are so intertwined."
- Wrap black plastic around large branches and the trunk to suppress new growth and smother shoots remaining in the wood of the tree. For explanation as to little concern for heat effects - click on blog.

MESQUITE GIRDLERS:

Mesquite Girdlers - common in area from August thru November. Considered by some to be another of "Mother Nature's pruning tools".

The return of the Mesquite Girdler is marked by the number of charcoal gray beetles found around outdoor night lights. The small gray beetles are easily identified with their long antennae - at least as long, or longer, than their body length.

The adult beetles emerge and feed on the tender bark around buds, thorns, and small stems for several days before finding a mate and egglaying.

The female usually finds a branch about the diameter of a pencil or slightly larger. She chews through far enough to prevent the passage of food and water. She may work meticulously for several days with the result of death to the portion of the branch above the girdle. The intent is not to sever the plant, but to leave it connected by a center of the heart-wood.

The female then makes an incision in the bark of the girdled branch and deposits a single egg inside, sealing the incision with an amber secretion. She travels the length of the girdled branch repeating the process for 5 to 25 eggs per branch. 98% of the eggs will hatch. The Girdler larvae remain in the girdled branch and feed on the sapwood for about 3 months.

Destroying the girdled branch ends is the single most effective control. All fallen branches should be gathered and removed to the landfill.

WANTED

Our neighborhood is the home of many retired professionals who continue to utilize their talents when there is a need. Many of these individuals do not advertise but are available via word of mouth.

For two months, we want to tweak this concept to see if these postings serve a community need.

So if you need some one with a special skill, post a note here and let us help you connect with

- **an accountant**
- **health-care giver**
- **notary**
- **driver**
- **house keeper**
- **babysitter**
- **????????**

THIS ONE IS FOR YOU - JUST CALL!
